

DataBank's West Twin Cities data center is located in Edina, MN. The area, known as a prominent technology district, boasts a number of prominent IT companies and industry partners. The site has undergone a \$4+ Million augmentation increasing data center floor space, enhancing power and cooling as well as upgrading office space and shared customer amenities. The site houses and provides services to a wide variety of local and statewide businesses. On-site security staff patrol and monitor the building 24/7/365.

Key Features

DataBank's West Twin Cities facility offers clients a top-tier data center environment in a secure office park setting:

- **South Minneapolis Location** - Edina, MN - Technology Business District
- **Robust Power** - Diverse power entries are fed by two separate Xcel Energy grids
- **Custom Footprint** - Over 16,000 square feet of customer data center space
- **On-Site Power Generation** - Two dedicated 2MW diesel power generators stand ready as backup to utility power
- **Carrier Accessible** - Multiple tier-1 carriers are available on-site
- **Redundant Cooling** - Dual systems fed by two chilled water loops provides almost 1000 tons of cooling capacity
- **Business Environment** - The data center is located in a 'Class A' building with a variety of tenant amenities

Infrastructure Redundancy

Our West Twin Cities data center facility offers DataBank clients a top-tier data center capable of providing complete redundancy in power, cooling and network infrastructure.

- **Multi-MegaWatt utility feeds in a redundant A/B configuration**
- **On-site power generation with additional expansion available**
- **High-efficiency perimeter cooling units**
- **Diverse secure service provider entries**
- **Meet-Me-Room offers network-neutral fiber interconnection to multiple service providers**

Support & Compliance

DataBank clients benefit from several layers of physical security, including 24/7/365 on-site security personnel. All DataBank facilities perform annual SSAE-16 and PCI-DSS audits, and will work with customers to provide any additional custom-layered security measures to meet their own PCI-DSS, HIPAA, FISMA, or other compliance requirements. DataBank's customer service is unparalleled and always available to address any concerns in an expedient and friendly manner. On-site support is available via remote hands, and all client requests are handled promptly.
