

DataBank's Downtown Pittsburgh data center facility is located inside the newly renovated Allegheny Technology Center Mall, only a few blocks away from both Heinz Field and PNC park. This highly-strategic location is a key resource for interconnectivity in the region and it boasts a large number of top-tier carriers and network providers.

## Key Features

DataBank's Downtown Pittsburgh facility offers clients a top-tier data center environment in a carrier-rich location.

- **Downtown Pittsburgh Location** – Strategically located site with utmost connectivity
- **Robust Power** – Power density of 10 kW per cabinet, with higher density solutions available
- **Data Center Footprint** – 15,000 square feet of raised-floor customer data center space
- **Redundant Cooling** – Highly-effective HVAC system for cooling and humidity levels
- **On-Site Power Generations** – Dedicated diesel generators with onsite fuel storage
- **Carrier Neutral Design** – Connectivity to multiple top-tier-carriers and network providers

## Infrastructure Redundancy

Our downtown Pittsburgh data center facility offers DataBank clients a top-tier data center with redundancy in power, cooling and network infrastructure.

- **Parallel UPS System in N+1 configuration**
- **AC Power available in multiple feeds of 120V, 208V, and 3 Phase**
- **DC Power is available from redundant (A&B) DC powerplants**
- **Dedicated 1MW power generator onsite with fully maintained fuel backup**
- **Over 230-tons of on-site cooling configured in N+1 redundancy**

## Security & Compliance

DataBank clients benefit from several layers of physical security, including 24/7/365 on-site security personnel. All DataBank facilities perform annual SSAE-16 and PCI-DSS audits, and will work with customers to provide any additional custom-layered security measures to meet their own PCI-DSS, HIPAA, FISMA, or other compliance requirements. DataBank's customer service is unparalleled and always available to address any concerns in an expedient and friendly manner. On-site support is available via remote hands, and all client requests are handled promptly.
