

DATABANK PINE RIDGE

KANSAS CITY DATA CENTER

DataBank's Pine Ridge data center is located in the technology-rich South Kansas City suburb of Overland Park. The site houses DataBank's primary Network Operations Center (NOC) and operational support teams. With more than 12,000 sqft of raised-floor data center space, the facility houses three independent data halls and direct connectivity to multiple top-tier carriers. Utility power is fed by two separate substations with dedicated diesel generators on site for load backup. The data center also employs advanced cooling technology to ensure optimal operating temperatures, allowing high-density computing. Facility-wide video monitoring, 24x7x365 staffing, and dual-factor authentication at all entrances provide the highest levels of security and protection against unauthorized access.

TECHNICAL SPECIFICATIONS

SPACE OPTIONS

- Purpose-built 30,000 sqft facility
- Over 12,000 sqft of raised-floor space
- Private suites, cages, and cabinets

NETWORK AND CONNECTIVITY

- Diverse and secure telecom entries in the carrier-class MMR (Meet-Me-Room)
- MMR connected to DataBank's proprietary fiber ring offers high-bandwidth access to a multitude of top-tier network providers
- Carrier & network-neutral design
- IP & Bandwidth: Managed Internet service supporting both IPv4 & IPv6, utilizing a multi-carrier blend with fully redundant routing infrastructure. Supports either IPs provided by DataBank or client-owned IP space

HVAC AND ENVIRONMENTAL DESIGN

- Redundant HVAC design for stable airflow, temperature and humidity
- Highly efficient forced-air cooling system
- On-site secured water storage tanks
- Hot-aisle/cold-aisle configuration
- Designed to support high-density computing
- Anti-static raised flooring and overhead cable runs allow unobstructed cold air delivery

POWER

- 5MW (2.5MW A + 2.5MW B) of on-site power deployed via underground diverse delivery
- Dedicated N+1 UPS configuration
- Dedicated N+1 configuration for diesel generators
- Dedicated on-site fuel supply for each generator
- Fully redundant Automatic Transfer Switch (ATS) configuration
- Multiple redundant power distribution paths
- Branch circuit monitoring

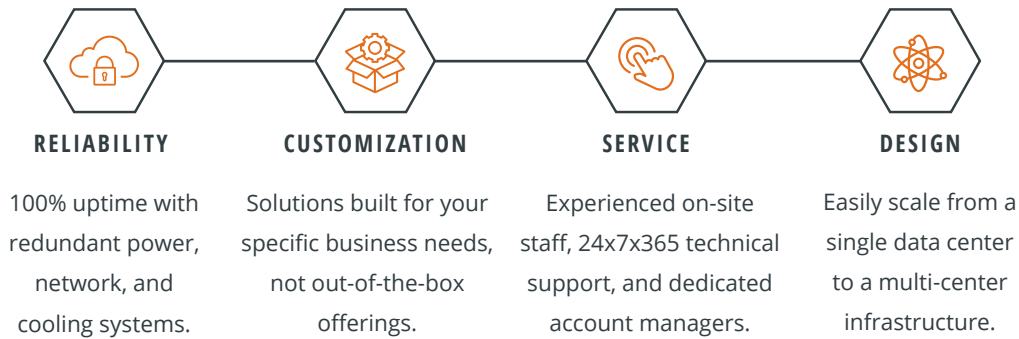

PHYSICAL SECURITY

- On-site security and support personnel 24x7x365
- Monitored security cameras and intercom system
- Secured mechanical/electrical equipment yard
- Dual-factor authentication (coded access w/ secondary biometric) on exterior entry and all data center halls
- Camera surveillance on all ingress/egress points and critical areas
- Video with access log retention for 90 days
- Custom physical security controls available for customer deployments
- Power delivery, generator and diesel fuel infrastructure maintained in secured areas

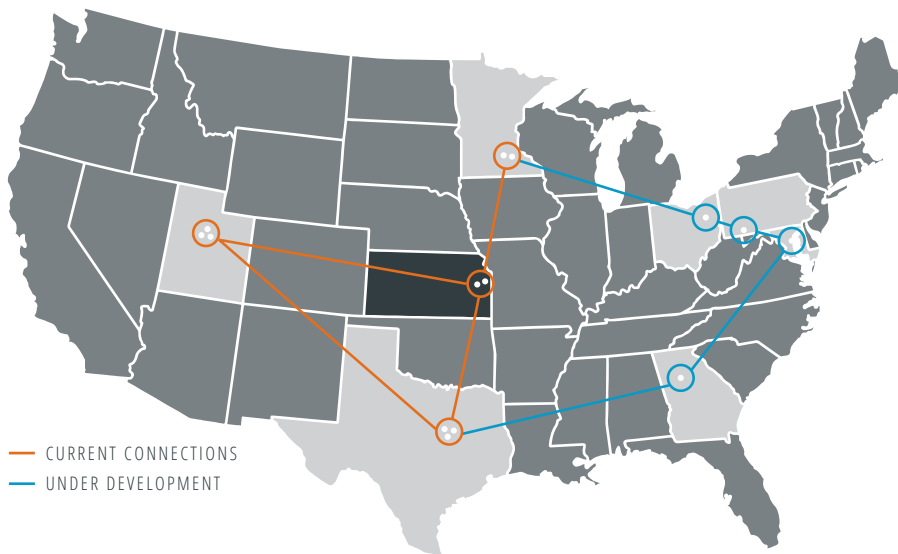

WHY CHOOSE DATABANK?

DataBank is a leading provider of enterprise-class data center, cloud, and interconnection services, offering 100% uptime availability of data, applications, and infrastructure. We design customized technology solutions that enable you to manage risk and improve operational performance, freeing you to focus on your core business objectives. With DataBank, you have a partner committed to delivering data center solutions tailored to your needs, backed by around-the-clock technical support and service.

INFRASTRUCTURE THAT GROWS WITH YOUR BUSINESS

- 8 MARKETS**
14 DATA CENTERS
- DALLAS, TEXAS
 - SALT LAKE CITY, UTAH
 - KANSAS CITY, KANSAS
 - ATLANTA, GEORGIA
 - MINNEAPOLIS, MINNESOTA
 - CLEVELAND, OHIO
 - PITTSBURGH, PENNSYLVANIA
 - BALTIMORE, MARYLAND

Using a proprietary fiber-ring design that incorporates multiple telecommunications carriers, DataBank provides reliable, secure enterprise-class connectivity for your business. Our 14 interconnected sites, strategically located throughout the country, give you the flexibility to scale from a single data center to a multi-data center infrastructure. You can easily replicate data, both between DataBank sites and from a DataBank site to other carrier-neutral data centers, protecting against service disruptions and providing 24x7x365 access to mission-critical data.
