With more than 400 blades, 8000 cores, and 9 PB of storage under management across four geographies, you can rely on our scale, tools, and talent to ensure your applications are globally available, protected, performant, compliant, and secure.

FedRAMP Compliant Protection to Cover Your Security Threats and Retention Policy Gaps

Meeting compliance requirements calls for multiple secure, off-site backups. Our partnership with Veeam does just that. Veeam software-defined backup technology, paired with DataBank's SSAE 18 data centers and FedRAMP compliant storage, deliver support for even the most stringent compliance requirements. DataBank's Backup for Microsoft Office 365 with Veeam is a critical part of an organization's holistic backup, disaster recovery and security posture. Our solutions are backed by an expert engineering team, proven methodologies, and 24x7x365 support to ensure your organization is protected.

Veeam™ is a registered trademark of Veeam Software.

HOW OUR SOLUTION WORKS

Key Benefits

Meet legal and compliance requirements with eDiscovery

Quickly restore individual Office 365 items and files

Convert capital costs into a predictable monthly expense

Protect your data from accidental deletion, security threats and retention policy gaps

Eliminate the cost and complexities of building and operating a secondary data center

Scalable on demand, pay only for what you use

A turnkey solution — no added burden for IT departments

Leverage proven solutions and providers, Veeam and Databank

Flexible restoration options, recover only what you need
