

DATA CENTER / PITTSBURGH / PIT2

SUMMIT PARK DATA CENTER

35 Summit Park Drive - Pittsburgh, PA

PIT2 is DataBank's second facility in the Pittsburgh PA market. Located in North Fayette Township, the facility was acquired from PNC Bank, the sixth largest commercial bank by assets in the U.S., and includes a long-term lease-back making the bank the anchor tenant occupying the entire second floor. DataBank has made significant enhancements to the secure, three-story, 115,000 sq. ft. facility, expanding it to a total of 40,000 RSF and providing 4.55 MW of redundant power. PIT2 offers excellent connectivity with a range of onsite carriers, and a high speed connection to PIT1, the regional carrier hotel, providing even greater options. DataBank also operates the facility to meet the FISMA (Federal Information Security Management Act) compliance standard. PIT2 is Pittsburgh's premier data center today, and with 10 acres of potential expansion, is poised to accommodate the market's needs tomorrow.
