Located in downtown Indianapolis, DataBank’s downtown IND1 facility is in the center of the telecommunications dense Henry Street area. The data center provides 4MW of on-site power in a N+1 design, 10,000 square feet of raised flooring for both cages and cabinets as well as overhead network distribution. Multiple dedicated A/B diesel power generators configured in a N+1 design support all utility power feeds ensuring uninterrupted service. The data center is a Carrier Hotel providing local access to 20+ top-tier carriers as well as DataBank’s proprietary fiber ring, providing connectivity to IND2. The facility offers multi-level physical security, including 24x7x365 on-site staff and monitoring.
