

DATA CENTER / MINNEAPOLIS / MSP2

EAST TWIN CITIES DATA CENTER

3255 Neil Armstrong Blvd - Eagan, MN

DataBank's East Twin Cities data center is located in Eagan, MN, to leverage the city's dense concentration of high-performance fiber. As a purpose-built, multi-tenant data center (MTDC), MSP2 offers 55,000 square feet of raised flooring, 20MW of 100% renewable-sourced power and access to a multitude of telecommunication providers within dual, carrier-class Meet-Me-Rooms (MMRs). One of the benefits of locating in MSP2 is Minnesota's sales tax rebate on hardware, software, and software maintenance deployed at the site. As the Twin Cities second carrier-hotel, MSP2 offers unmatched fiber connectivity and serves as a redundant communications hub for the region. MSP2 is Uptime Institute Tier-III certified and provides multiple layers of physical security, including 7x24x365 on-site monitoring and hardened construction.
