

GRANITE POINT DATA CENTER

14870 S Pony Express Rd - Bluffdale, UT

DataBank's Granite Point North data center is strategically located in Bluffdale, UT, minutes from downtown Salt Lake City. Featuring 50,000 sq ft of raised-floor space, the facility offers network connectivity to over a dozen carriers and cloud providers, as well as access to Granite Point's own private 66MW N+1 power substation. The facility has been designed from the ground up with a full suite of customer amenities and all the security features needed to meet HIPAA, PCI-DSS, SSAE-18 SOC1 and SOC2, GDPR, and FedRAMP compliance requirements. This combination of power, network, facilities and the convenience and peace-of-mind of a campus setting ensure that DataBank's SLC5 is the ideal data center for the high-performance computing, content providers, cloud giants, hyperscale providers and large enterprises that are giving Utah its "silicon slopes" nickname.
