

Backup for Office 365 with VEEAM™

PROTECTION AND CONTROL OF YOUR OFFICE 365 DATA

The Perceived Responsibility Gap

Microsoft's primary focus is managing the Office 365 infrastructure, applications, and uptime. Ultimately, the data is your responsibility. There's a common misunderstanding that falls between Microsoft's perceived responsibility and the user's actual responsibility. The backup and recoverability that Microsoft provides and what users assume they get are often very different, creating a gap in coverage which leads to recoverability exposure.

Ensure IT Resilience

DataBank's Backup for Microsoft Office 365 offers you the data protection you need for your business-critical Office 365 data, including Exchange Online, SharePoint Online, OneDrive for Business, and Microsoft Teams, so that your data is always protected and accessible. DataBank's solution combines the power of Veeam with SSAE 18 SOC compliant data centers, encrypted storage repositories, scalable storage-as-a-service, flexible archival and retention policies, and a self-service portal so you can maintain control of your data.

Veeam™ is a registered trademark of Veeam Software.

AT-A-GLANCE

- Flexible archival and retention
- Encrypted storage repositories
- Scalable storage-as-a-service
- Geo-diverse SOC compliant data center facilities
- Control of your data
- Supports and enables the full spectrum of compliance mandates including FedRAMP, HIPAA/HITECH, PCI-DSS, SSAE SOC 1 and SOC 2

KEY BENEFITS

PROTECTS DATA

ENABLES COMPLIANCE

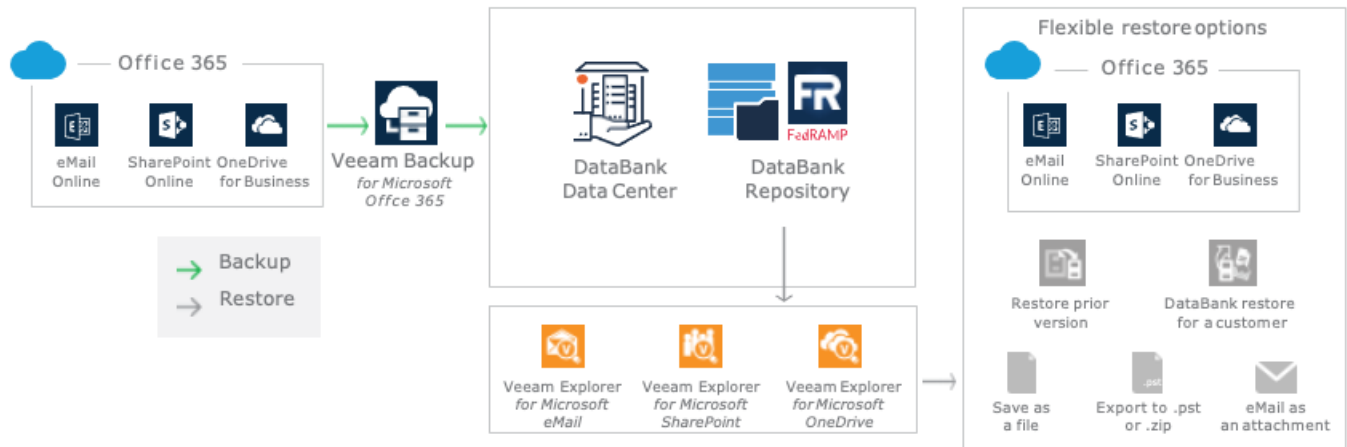

MITIGATES RISK

ENSURES RECOVERABILITY

HOW IT WORKS

Features

- Veeam Office 365 backup licenses
- SSAE SOC compliant data center facility
- FIPS 140-2 encrypted storage repositories
- Scalable storage-as-a-service pricing model
- Flexible archival and retention
- 7x24x365 management and monitoring
- Self-service Portal
- Audit and compliance reporting

Benefits

- Protects data from accidental deletion, security threats and retention policy gaps
- Reduces burden for IT departments
- Enables quick restoration of files
- Leverages proven solutions and service providers
- Converts capital cost into a predictable monthly expense
- Enables scale on demand and only pay for what you use
- Enables recovery of only what you need
- Ensures security and compliance to meet business requirements
