

Managed Vulnerability Scanning

FAST, ACCURATE, VULNERABILITY ASSESSMENTS

Identify and Mitigate Vulnerabilities that Threaten Compliance

Vulnerability scanning is a critical component of protecting any hybrid IT infrastructure system, especially those that need to meet strict FedRAMP, HIPAA, and PCI-DSS compliance requirements. Managing vulnerabilities helps identify software flaws, missing patches, malware, misconfigurations across operating systems, devices and applications.

Knowledge is Power

DataBank's Managed Vulnerability Scanning solution leverages hundreds of configuration and compliance scanning templates to audit against industry benchmarks and best practices while powerful reporting and visibility tools help you to make sense of the findings. DataBank's Managed Vulnerability Scanning helps you accomplish your goals of identifying and mitigating vulnerabilities before they become a problem. DataBank's solution is supported by a dedicated staff of security engineers and a seasoned Chief Information Security Officer.

SOLUTION AT-A-GLANCE

- Scanning options include OS, database, application, and host
- Credentialed Patch Audit Scans
- Host/Network Discovery Scans
- CIS Hardening Scans
- Web Application Scans
- Auditing and scanning for WannaCry, Spectre, Meltdown, Bash Shellshock, Badlock, and Shadow Brokers

KEY BENEFITS

LAYERED DEFENSE

PROACTIVE SERVICE

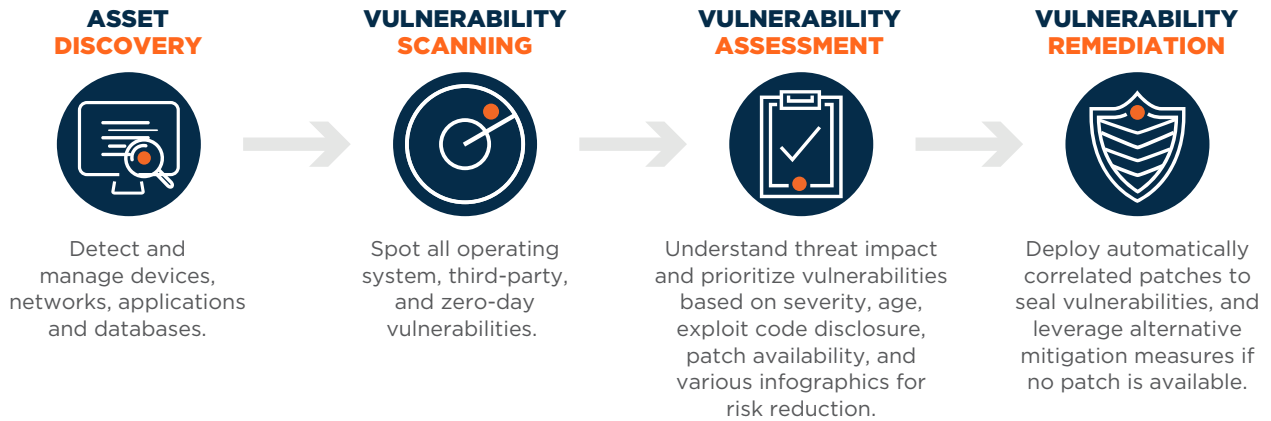

EXPERT GUIDANCE

CONTINUOUS MONITORING

HOW IT WORKS

Features

- Discovery through active scanning, agents, passive monitoring and a configuration management database (CMDB)
- Assessment coverage of more than 50,000 Common Vulnerabilities and Exposures
- Predictive prioritization combines vulnerability data, threat intelligence and data science
- Advanced dashboards and reports

Benefits

- Streamlines compliance reporting for FedRAMP, HIPAA/HITECH, and PCI-DSS
- Provides immediate insight to vulnerabilities and allows organizations to set a baseline for evaluating the coverage of their security tools
- Provides an easy to understand risk score so you know which vulnerabilities to fix first
- Speeds up incident response

WHY DATABANK?

OUR APPROACH

We are your trusted partner committed to getting you the optimal solution to meet your business objectives

SECURITY

Our dedicated security and compliance teams lets us achieve the most stringent regulatory certifications for our facilities and solutions

ACCOUNTABILITY

We are straightforward, thoughtful, and resolute in our pursuit of better customer experiences and business success

SERVICE

Datacenter staffed 24/7/365 with U.S. based responsive support engineers. Proactive service methods takes the burden off your team
