

Object Storage

ENDLESS SCALABILITY ZERO COMPLEXITY

Why object storage? We are currently experiencing explosive data growth, especially with unstructured data. Traditional data storage techniques simply weren't designed to scale to keep pace, making them difficult to manage and leading to performance degradation. As companies wrestle with how to store large volumes of unstructured data but need an alternative to potentially expensive public cloud storage options, many are turning to object storage.

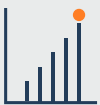

An All-Inclusive Storage and Retrieval Solution

Object storage is both integral and complementary to a holistic storage strategy. DataBank's Object Storage solution eliminates egress fees for data retrieval, which makes your IT spend more affordable and predictable. We also eliminate complexity by leveraging the industry-standard Amazon S3 API protocol. Couple these benefits with storage located in DataBank's enterprise data centers, and you can achieve endless scalability, security, and performance.

SOLUTION AT-A-GLANCE

- Compatible with S3 API
- No Ingress or Egress Fees
- Infinite Scalability
- 99.99999% Data Durability
- Pricing Clarity - One Price for each TB of Storage

KEY BENEFITS

BUILT FOR SCALE

DATA INTEGRITY

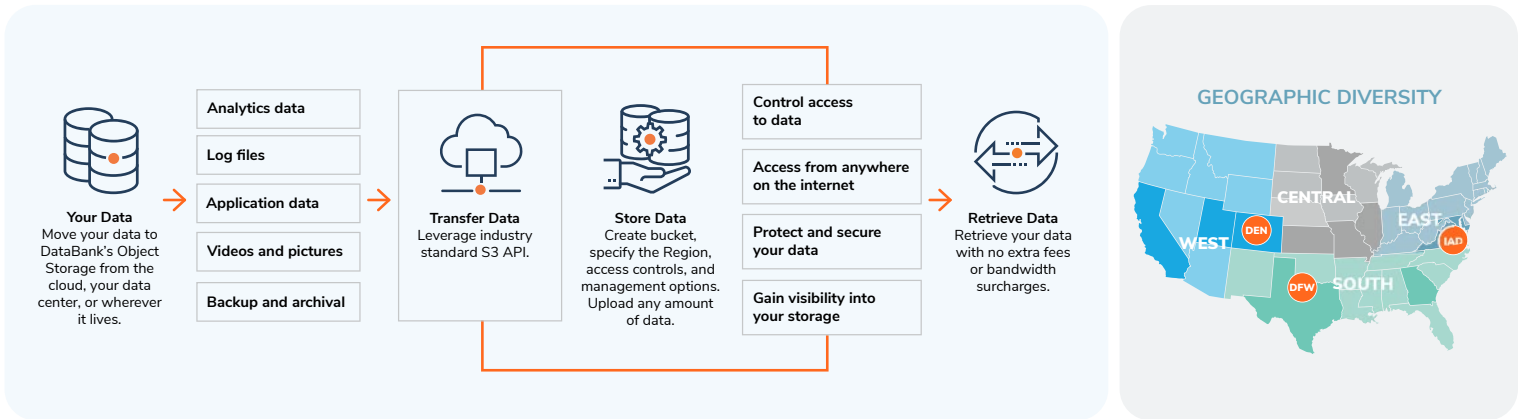

EASY TO MANAGE

CLOUD-ENABLED

HOW IT WORKS

Features & Service

- Accessible via HTTPS port 443
- NO CHARGE and no limit for API calls
- Automated capacity alerts
- URL for customer endpoint access
- Native AES 256 encryption (in transit, and at rest)
- 7x24x365 support

Benefits

- Provides simplified, all-inclusive pricing
- Enables storage and retrieval of any amount of data from anywhere
- Complements your existing DataBank collocated and/or cloud infrastructure
- Leverages existing technologies for a complete and comprehensive storage solution strategy

WHY DATABANK?

OUR APPROACH

We are your trusted partner committed to getting you the optimal solution to meet your business objectives.

SECURITY

Our dedicated security and compliance teams lets us achieve the most stringent regulatory certifications for our facilities and solutions.

ACCOUNTABILITY

We are straightforward, thoughtful, and resolute in our pursuit of better customer experiences and business success.

SERVICE

7x24x365 staffed data centers with U.S.-based responsive support engineers. Proactive service methods take the burden off your team.
